This is a PDF file of an article that has undergone enhancements after acceptance, such as the addition of a cover page and metadata, and formatting for readability, but it is not yet the definitive version of record. This version will undergo additional copyediting, typesetting and review before it is published in its final form, but we are providing this version to give early visibility of the article. Please note that, during the production process, errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The reference for the Total Carbon Column Observing Network (TCCON) site at Lamont should have been listed as Wunch et al. (2011). The acknowledgements should have stated that the TCCON operations at Lamont, OK, are supported by the Department of Energy and their staff at the Southern Great Plains (SGP) Atmospheric Radiation Measurement Research Facility. A dataset reference for the TCCON spectra should have been included. The appropriate reference for the spectra used is the GGG2012 data description (TCCON, 2012).
